A software engineer with a background as an esthetician, teacher, and small business owner allows me to create organized structure, operate efficiently, and apply an appealing aesthetic to all my work. My customer-facing communication skills allow me to facilitate ideas, question for needs, and receive the constructive criticism needed to finish the work on time and in full.

Technologies

- HTML/CSS	- Express	- Django	- MongoDB	- Slack	- Bulma
- JavaScript	- Node.js	- Mongoose	- Github	- Heroku	- Materialize
