A software engineer with a background as an esthetician, teacher, and small business owner allows me to create organized structure, operate efficiently, and apply an appealing aesthetic to all my work. My customer-facing communication skills allow me to facilitate ideas, question for needs, and receive the constructive criticism needed to finish the work on time and in full.

Technologies:

- HTML/CSS	- React	- MongoDB	- AJAX	- Slack
- JavaScript	- Node.js	- Mongoose	- Github	- Heroku
- Python	- Express	- PostgreSQL	- Git	-Bootstrap

Experience

General Assembly

Software Engineering Immersive Student, June 2020 - October 2020

Three-month, 500-hour full-time and full-stack program conducted in a remote setting, providing experience with the latest front- and back-end programming languages, tools, and methodologies including: HTML, CSS, SASS, Javascript, jQuery, PostgreSQL, MongoDB, Ruby, Ruby on Rails, AngularJS, NodeJS, ReactJS, Wordpress, Git, Github, and Agile/Scrum.

Co-Owner/Operator

Volume Salon Austin, June 2016 - June 2020

Co-founded and managed all features of the business, including customer service, accounting, inventory management, sales, marketing, staffing, and training. Provided outstanding customer service while continuing to grow business. Maintained a loyal customer base of over 400 guests.

Sole Proprietor-Esthetician Jun 2012 - June 2020

Service Provider that maintained a dedicated clientele for close to a decade. Entire clientele built and maintained by word of mouth.
